**LA CLIPPERS AND LEVY LAUNCH 310 PROVISIONS TO
TRANSFORM FOOD AND BEVERAGE EXPECTATIONS AT INTUIT DOME**

Intuit Dome and Levy partner to create a food and beverage program built to eliminate wait times and deliver the highest quality food experience.

LOS ANGELES – (December 5, 2023) – The LA Clippers have teamed up with hospitality partner Levy, the market leader in sports and entertainment dining, to launch 310 Provisions at Intuit Dome. Opening Summer 2024, Intuit Dome was built with a clear vision to optimize the food and beverage experience for fans, a goal which has guided the work since the initial arena design process began. Intuit Dome will be the first arena with 100% frictionless hospitality, enabled by technology to serve fresh, craveable foods of the highest quality with no wait times.

“Fans care about food. We are eager for our guests to enjoy the food and beverage experience, which we have obsessed over for nearly five years,” said Gillian Zucker, LA Clippers and Intuit Dome President. “Along with AECOM, we worked with Levy to facilitate the operational design for the next generation arena, leveraging Levy’s experience and talent with one goal in mind - to provide high quality, sustainably sourced food that fans crave, delivering it where and when guests want it, all cooked to perfection. 310 Provisions has been created to deliver on that promise.”

“To have partnered with such a visionary team as the LA Clippers over the past five years and plan this next generation arena before a shovel even touched the ground has been the most amazing collaboration,” said Andy Lansing, Levy CEO. “Together we’ve created the touchstone for future hospitality experiences in sports and music. It is rare to be able to be part of such a truly transformational moment, and what we have created at Intuit Dome marks one of those moments.”

Intuit Dome is built with a culinary back-of-house to deliver a more efficient and effective food and beverage experience. The venue includes a 14,000+ square foot main kitchen, which is nearly twice the size of the industry average, multiple commissaries strategically located throughout the building to support distribution, a dozen exhibition kitchens in premium spaces, and energy-efficient kitchens in 65% of fan locations to continually offer fresh-cooked menus.

On the general concourses, 100% of the food locations are frictionless, compared to 15% at other arenas around the world. The multi-year planning process and focus on what's best for the fan experience influenced the infrastructure that will ensure the food and beverage vision for Intuit Dome can be delivered for all events.

Lansing added, "We had the amazing opportunity to imagine the ideal scenario and what next generation food and beverage could be. The Clippers brought it all together and made an uncommon investment in fans by setting the vision, pushing the design process, and providing the space, equipment, and technology to create what will be a one-of-a kind food and beverage experience at Intuit Dome."
